INTRODUCTION

Hello, my name is Zhi-Wei Tong; you also can call me Andy for short.

I recently graduated from the department of Computer Science at National Chung Hsing University.

I studied related applications of Natural Language Processing (e.g., ChatGPT) during the study period.

In addition, I interned at the Industrial Technology Research Institute as a backend engineer.

I like to cooperate with others because I can help others. On the other hand, I can learn from them.

EDUCATION

2020 - 2022 Master of Computer Science at NCHU (GPA: 3.86/4.3)

2016 - 2020 Bachelor of Computer Science at NTCU (Rank: 11/41)

WORK EXPERIENCE

Intern at Industrial Technology Research Institute Jul 2021 - Aug 2021

- Classified over 7 million legal judgments in a NoSQL database for collecting the data should be labeled
- Constructed a FastAPI website backend and designed website APIs for collecting data features
- Assisted human-labeled data using regular expressions & highlight

Intern at Telecom Technology Center Jul 2018 - Jul 2018

- Analyzed the firmware of common routers on the market for CVE vulnerabilities

PROJECTS

PTT Article Search Engine Sep 2021 - Dec 2021

- A search engine based on PTT hot boards articles and tweets (up to 100M)
- Set up the Elasticsearch search engine and deployed it on Kubernetes
- Automatically crawled the latest articles from PTT daily

SDN Flow Analysis System based on Deep Learning Jul 2019 - Dec 2019

- Trained MLP and SAE model to identify data packet source by analyzing data packet header
- Real-time present the analysis results on the website
- University graduation project #1

SKILLS

C/C++	Data Structure, Algorithm	Natural Language Processing	Question Generation
Python	Machine Learning, Web Crawler	Backend	RESTful API Design
SystemVerilog	TestBench	DevOps	Kubernetes
Verilog	Adder, Counter, FSM	Design Verification	UVM

THESES

Zhi-Wei Tong, Yao-Chung Fan (Sept. 2022). "DR.QG: Enhancing Closed-Domain Question Answering via Retrieving Documents for Question Generation". In: URL:
