INTRODUCTION

Hello, my name is Zhi-Wei Tong; you also can call me Andy for short.

I recently graduated from the department of Computer Science at National Chung Hsing University.

I studied related applications of Natural Language Processing (e.g., ChatGPT) during the study period.

In addition, I interned at the Industrial Technology Research Institute as a backend engineer.

I like to cooperate with others because I can help others. On the other hand, I can learn from them.

EDUCATION

2020 - 2022 Master of Computer Science at NCHU (GPA: 3.86/4.3)

2016 - 2020 Bachelor of Computer Science at NTCU (Rank: 11/41)

WORK EXPERIENCE

Intern at Industrial Technology Research Institute Jul 2021 - Aug 2021

- Classify over 7 million legal judgments in a NoSQL database for collecting the data should be labeled
- Design a website API for collecting data features and construct a website backend
- Assist human-labeled data using regular expressions

Intern at Telecom Technology Center Jul 2018 - Jul 2018

- Analyze the firmware of common routers on the market for CVE vulnerabilities

PROJECTS

PTT Article Search Engine Sep 2021 - Dec 2021

- A search engine based on PTT hot boards articles and tweets
- Regularly crawl the latest articles from PTT
- Search for specific articles or tweets based on account numbers and keywords

SDN Flow Analysis System based on Deep Learning Jul 2019 - Dec 2019

- Trained MLP and SAE to identify network packet source by analyzing network packet header
- Dynamically and instantly present the analysis results on the website
- University graduation project #1

SKILLS

C/C++	Data Structure, Algorithm	Natural Language Processing	Question Generation
Python	Machine Learning, Web Crawler	Backend	RESTful API Design
SystemVerilog	TestBench	DevOps	GitHub Actions
Verilog	Adder, Counter, FSM	Digital Verification	

THESES

Zhi-Wei Tong, Yao-Chung Fan (Sept. 2022). "DR.QG: Enhancing Closed-Domain Question Answering via Retrieving Documents for Question Generation". In: URL:
